

PRAVEEN ARULMOZHI

Frontend Developer

React.js • React Native

+91 7010486656 | praveencb1320@gmail.com | linkedin.com/in/praveenarulmozhi

PROFESSIONAL SUMMARY

Frontend Developer with **4+ years of experience** designing and developing scalable, high-performance web and mobile applications using React.js, React Native, TypeScript, and modern frontend technologies. Skilled in building enterprise-grade airline and airport solutions, developing reusable component-based architectures, integrating REST APIs, and optimizing application performance. Proficient in Redux Toolkit, Redux Saga, Tailwind CSS, Jest, React Testing Library, and CI/CD practices, with a strong grasp of UI/UX principles and responsive design. Proven ability to lead POC initiatives, collaborate with cross-functional teams, and deliver user-centric applications that improve business efficiency.

CORE SKILLS

- **Frontend Development:** React.js, React Native, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3
- **State Management:** Redux, Redux Saga, Redux Toolkit, Context API, Hooks, Component Lifecycle & Optimization
- **APIs & Data:** RESTful APIs, Third-Party Integrations, Axios, Fetch API
- **Testing:** Jest, React Testing Library, Vitest
- **Tools & DevOps:** Git, GitHub Actions, Jenkins, CI/CD, Turbo Repo (Mono-repo)
- **Design:** Figma, UI/UX Design Principles
- **Collaboration:** Agile/Scrum, Cross-functional Teamwork

PROJECT HIGHLIGHTS

Airline Maintenance Dashboard

React.js | Redux Saga | Jest

- Enterprise dashboard for aircraft maintenance used about **50+ engineers**
- Improved dashboard responsiveness using Redux Saga and React optimization
- Built **reusable components**, reducing feature development effort by **20%**

Airport Operations Mobile App

React Native | REST APIs

- Developed **cross-platform airport operations app** for iOS & Android
- Implemented **offline support** and real-time synchronization
- Improved field usability in low-connectivity airport environments

OTA Deployment & Monorepo Modernization

Revopush | Turbo Repo

- Implemented **OTA updates**, eliminating App Store redeployments
- Built **Turbo Repo monorepo**, helps in reducing duplicate code
- Accelerated release cycles and developer productivity

WORK EXPERIENCE

Frontend Developer — Tata Consultancy Services (TCS)

Feb 2022 – Present

Travel, Transport & Hospitality Domain — Airline & Airport Solutions

- Spearheaded design and development of dynamic, high-performance **React.js web applications** for airline prototypes, serving 50+ engineers daily across maintenance operations.
- Architected scalable frontend solutions with **Redux & Redux Saga** middleware for efficient asynchronous state management and API orchestration.
- Built **cross-platform airline and airport applications** using React Native, enhancing user engagement and app performance across iOS and Android.
- Developed **real-time baggage tracking system** and push notification framework for flight status, gate changes, and travel updates.
- Optimized application performance using **React memoization, lazy loading, and lifecycle optimization**, improving dashboard responsiveness.
- Created dynamic **engineering dashboards** displaying aircraft serviceability, maintenance schedules, and task workflows — reducing engineer task turnaround time.
- Validated component behaviour across releases by writing unit and integration tests using **Jest & React Testing Library**.
- Collaborated with UI/UX designers and backend developers in an **Agile/Scrum** environment to define requirements and deliver seamless user experiences.

Key Achievements

- **Rising Star Award & Star Team Award** — Recognised at TCS for outstanding performance and cross-team contribution.
- Led a **team of 4** in planning and delivering multiple POC projects on time, managing timelines, code reviews, and cross-team coordination.
- Championed **unit testing adoption** using Jest & React Testing Library, improving overall code quality and release confidence.
- Consistently delivered **enterprise-grade solutions** across 3+ airline and airport products within a fast-paced, client-driven environment.

EDUCATION

B.E. Mechanical Engineering

2017 – 2021

CGPA: 7.66

AWARDS & CERTIFICATIONS

- **Rising Star Award** — Tata Consultancy Services (TCS)
- **Star Team Award** — Tata Consultancy Services (TCS)
- **HackerRank Certification** — Frontend Development (React.js)
- **UI/UX Figma Design Course** — Udemy
